It was checked for updates 339 days ago by our users on Emulators. Its official description is: Super GSM 7-pin USB Cable - USB 3G modem and USB data cable - a common solution for the N810 - compatible with most 3G GSM mobile phones, even the more and more used Nokia N900 / N9 models. This Super GSM USB cable is an original adapter USB (5 V) and a Super GSM interface (4 to 7 volts - which is usually the cable's own 3.3V supply from the microcontroller). Super GSM interface, which can operate on several different frequencies: 850 / 900 / 1800 / 1900 Mhz. Interface can be activated / deactivated using "ON / OFF" button on the adapter. With this cable you can connect your N810 (or any other GSM phone with a USB port) and a PC/Laptop equipped with a USB 2.0 port to use the Internet. You can also use your N810 as a modem / GSM Gateway for a mobile phone / PDA. Key features Mobile phone / PC / laptop USB 2.0 interface (Windows compatible).
